## Boost your Wi-Fi signal and coverage with additional pods

For best results we recommend a Wi-Fi pod on every floor; call us today to add additional pods.

Follow these easy steps to set up your additional Wi-Fi pod(s):

1. Place the additional Wi-Fi pod where you want it and plug it into a power outlet.
2. When the light on the bottom of the Wi-Fi pod is solid green, your additional pod is now connected to your Wi-Fi network. This can take up to 5 minutes.
Connecting Wired Devices

Each Wi-Fi 6 pod is equipped with three ethernet ports

Your modem will take one port on your main Wi-Fi pod. The additional ports or additional Wi-Fi pods can be used to connect a nearby device.
For example:

- Home Phone Analog Telephone Adapter (ATA)
- TV Set Top Box
- Gaming Console
- Computer
